

DDSN Weekly Regional Center Positive COVID-19 Update

(data as of Wednesday, August 19, 2020)

DDSN provides the following information for families, stakeholders, and the media for each Regional Center by residents & staff:

- total COVID-19 positive cases since the beginning of the Pandemic;
- total COVID-19 related deaths since the beginning of the Pandemic;
- total COVID-19 positive cases still in CDC 14 day quarantine period (cases presumed to still have infection & spread risk); and
- total COVID-19 positive cases 15+ days from 1st symptom or test date (cases indicate most, but not all, are clear of infection & spread risk).

Regional Center	Census (Staff=FTEs)	Total Positive COVID-19 Cases During Pandemic	Positive COVID-19 Cases Still in CDC 14 Day Quarantine Period	Positive COVID-19 Cases 15+ Days from 1st Symptom or Test Date	Deaths
Coastal - Residents	141	10	0	10	2
